Marburg, den 25.09.2013

### Invitation to the Transnational Student Congress (TSC) from the 28th October, 2013 till the 3rd of November in Marburg

Dear Sir or Madam,

the General Students' Committee (AStA) Marburg, together with the Federal Committee of Students of the Education and Science Workers' Union (LASS-GEW) are organizing the Transnational Student Congress (TSC) from the 28th of October till the 3rd of November, 2013, in Marburg.

The workshops, given by and for students, will focus on the basic development within education systems world-wide, as well as the reflection on the different understanding of democracy. The current process of political transformation within the MENA region will also be a topic. The congress aims to improve the understanding of global problems and increase the networking amongst students worldwide.

As an international institution for higher education, the Philipps-Universität Marburg views internationalization as a continuous process on different levels to stay attractive to students, scientists and partner institutions, nationally and internationally.

We are, therefore, extremely pleased that Marburg will host the Transnational Student Congress this year.

We would be most obliged, if your office could assist the students, especially those that are from countries that need a Visa to enter Germany, with the necessary papers, and thus, enable them to take part.

Your cooperation would be greatly appreciated! Thanking you in anticipation for your kind cooperation,

sincerely,

  
Prof. Dr. Katharina Krause  
President Philipps-Universität Marburg
